

MUTHU RAJESH T

AI Engineer | Full Stack Developer

muthurajesht041@gmail.com | LinkedIn | GitHub

SUMMARY

Third-year Computer Science and Engineering undergraduate with a strong curiosity for technology and a passion for continuous learning. Adaptable to new tools, frameworks, and challenges, with a keen interest in exploring emerging technologies and building practical, impactful software solutions.

TECHNICAL SKILLS

Programming Languages: Java, C, C++, JavaScript, Python

Frontend Technologies: HTML, CSS, React.js

Backend Technologies: Node.js, Express.js, Firebase

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, VS Code, Jira, Canva, Vercel

CORE SUBJECTS

- Data Structures
- Data Structures & Algorithms
- Machine Learning
- Object-Oriented Programming

PROJECTS

MERGIFY – Unified Campus Management Platform

React, Vite, Tailwind CSS, Firebase, Firestore

Developed a role-based campus platform for students and faculty integrating attendance tracking, announcements, safety reporting, and AI-powered study planning. Implemented Firebase Firestore for real-time synchronization and efficient data management.

HomeChef Connect – Community Food Exchange Platform

React, Node.js, Express.js, MongoDB, Razorpay, Cloudinary

Built a full-stack food-sharing platform connecting home chefs with customers through location-based discovery. Integrated secure authentication, payment processing, image management, and order tracking functionalities.

SafeGuard AI – Fall Detection Dashboard

React, TypeScript, Vite, Axios

Created a real-time AI-assisted monitoring dashboard capable of processing webcam feeds and generating emergency alerts. Implemented confidence-based prediction validation to improve detection accuracy and reduce false alarms.

ATTENDO – Facial Recognition Attendance System

React, face-api.js, Firebase Firestore

Developed a contactless attendance system using facial recognition technology for automated student identification and attendance recording. Integrated reporting and analytics features to enhance attendance monitoring.

ACHIEVEMENTS & CERTIFICATION

- School Topper in Higher Secondary Education with 97.5
- Participated in national-level hackathons and innovation challenges.
- Developed multiple AI-assisted and full-stack software applications.
- Certification: GDG on Campus Solution Challenge – Certificate of Achievement (Hack2Skill), 2025

EDUCATION

Madras Institute of Technology, Chennai

2024 – 2028

B.E. Computer Science and Engineering

CGPA: 8.18

Kanchi Sri Sankara School, Tiruchendur

2011 – 2023

Higher Secondary Education

Percentage: 97.5

LANGUAGES & HOBBIES

Languages: English, Tamil

Hobbies: Reading, Drawing, Cricket, Sudoku
